SHERIFF BATTLES WITH DESPERADOES

Two Men Meet Death In the Encounter.

1 ROBBER KILLED; 1 CAPTURED

Desperate Battle Occurs Near Kennewick, Wash., Between Officials and Burglars Who Robbed Two Stores in that Town.

Spokane, Wash., Nov. 2.—A special from Prosser, Wash., says:

There was a desperate battle near Kennewick between officials and burglars who robbed two stores in that town. The officers were led by Sheriff A. G. McNeal, of Prosser, who came on the robbers unawares in the bush. They were five or six in number and at once commenced firing.

Marshal Michael Glover, of Kennewick, was instantly killed and Joseph Halsey, his deputy, was fatally injured.

Sheriff McNeal was shot twice, but not dangerously hurt. After being wounded the sheriff emptied his gun at the robbers, killing one and finally capturing another.

The gang of burglars is thought to have had a rendezvous at Kennewick for the purpose of holding up a Northern Pacific train.

The captured robber says he is Robert Layton, aged 16 years.

He revealed the identity of the dead desperado as Jacob Lake, recently a convict in the penitentiary at Walla Walla.

Layton says his home was formerly in Florence, Colo.

Washington, Nov. 2.—A curious result of the recent adoption by the U. The man was a prisoner in the United States penitentiary, serving a five-year sentence for a military crime. In prison he was well behaved and liked, but when the waren, following th egeneral order to take the finger print records of all soldiers, attempted to secure an impression of this man's digits, he met with violent resistance, and the assistant who tried to make the record was knocked down and roughly handled.

COL. ROBINSON'S MEMORY REVERENCED

Memorial Services Conducted by Gainesville Lodge, Elks.

SERVICE AN IMPRESSIVE ONE

Several Addresses Upon the Life of Deceased Were Made, After Which Resolutions Were Passed—Deceased a Prominent Member of Lodge.

For the second time since its organization, Gainesville Lodge No. 990, B. P. O. E., was called upon Thursday evening to observe a memorial service in reverence of a deceased brother, Hon. Walter G. Robinson, who breathed his last on Saturday October 28.

The service was opened by Exalted Ruler H. S. Chubb with a beautiful tribute to the life of deceased, whom he had known and had been associated with intimately in a political and professional way for many years. His address was full of pathos, and was a very touching one.

Exalted Ruler Chubb was followed by Senator H. H. McCreary. Senator McCreary also spoke with considerable feeling. He stated that he had known the deceased for a quarter of a century, perhaps longer, and that he could say with perfect grace that he never knew a more loyal friend. He personally felt deeply his death.

Messrs. Burkhim and McCormick spoke of their high regard for the deceased, and dwelt upon his loyalty and generosity to every enterprise for the benefit of the community.

W. E. Dow, Dr. J. F. McKinstry and Postmaster L. C. Lynch all made impressive talks. Postmaster Lynch's talk was especially touching. For several years he had been intimately associated with deceased in a professional, social and business capacity, and felt that the deceased was more like a brother than a friend to him.

After these touching remarks, the following resolutions were presented and unanimously passed:

Resolutions.

"Whereas, Gainesville Lodge No 990, Benevolent and Protective Order of Elks, has again suffered an irreparable loss in the recent death of our Brother, Walter G. Robinson, who in the fullness of years, has been called from association among his brothers and friends in this life, to affiliation with those countless numbers who, having passed over the river, are resting in the shade of eternal contentment; and

"Whereas, This visitation of Providence has imposed upon this lodge the loss of a beloved brother; the city an energetic, philanthropic and patriotic citizen, and our State and Nation a distinguished official, whose generous impulses, wide-spread charity and patriotic motives have long relieved suffering, encouraged the deserving and exemplified the highest duties of civic life; therefore, be it

"Resolved, That deeply conscious of the loss to this lodge, and to the people of our city and State, we give expression to our regard for his personality, our esteem for his virtues and our reverence for his memory; be it further

"Resolved, That our sympathy be extended to his relatives in this, their hour of sorrow, and that a copy of these resolutions be forwarded to them, and to the local press and The Times-Union for publication.

The game was fairly well attended, though not as well as it should have been. Those who were present, however, thoroughly appreciated the cleverness with which both teams worked, notwithstanding that Riverside failed to score. The game was a fast one from start to finish.

Always Was Sick.

When a man says he always was sick, troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup? Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: 'For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me.' Sold by W. M. Johnson.

VANITY

From time immemorial moralists have railed at the vanity of woman. Here is a woman, and a beautiful one at that, who says that vanity is an imperishable instinct; that vanity, like love, is one of the great forces that makes the world go round; that to be vain is a duty to humanity and an essential of success.

It's an original view; what is *your* opinion? This defense of an old time sin is set forth in our new magazine—

Deceased was fifty-five years of age, and was virtually reared in the West End. He is survived by a large family, to whom the sympathy of friends is extended.

Deceased was a member of the Christian Church, and the funeral was held Friday afternoon, the services being conducted by Rev. S. W. Colson. The interment was in Joppa cemetery.

Deceased was a very prominent man, and had many friends throughout the county.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' dance, which yielded to no treatment but grew steadily worse, until as a last resort we tried Electric Bitters, and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weakness, impoverished blood and malaria. Guaranteed by all drug stores. Price, 50c.

A BOON TO VISITORS.

Tampa's Palatial Caravanserie Open During the Fair.

A hotel management that will spend in one summer $25,000 in renovating their house, prove what the Tampa Hotel management claim, that their palatial caravanserie at Tampa Bay is now in better shape than it has ever been since the days of Henry B. Plant, who built it. This paper is informed by Manager Lauber that the hotel will be open to the throngs attending Florida's great Fair at the reduced rate of $3 per day and up, which will make it by all odds the very best place to stop during the Fair.

Rooms and board may be engaged—and should be engaged at once—by communicating with Mr. Lauber, either by wire or mail, and if you are fortunate enough to secure entertainment within the luxurious surroundings of the hotel, your stay at Tampa will be full of an enjoyment you cannot otherwise hope to experience.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tacket of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored, and as time has proven, permanently cured." Guaranteed for sore lungs, coughs and colds, at all drug stores. Price, 50c and $1. Trial bottle free.

Municipal Relief Committee.

San Francisco, Nov. 2.—A mass meeting of city employees and friends numbering about 3,000 in all, was held Wednesday night to effect an organization to support the city administration. Speeches were made by Abraham Reuf and others, attacking newspapers and individuals engaged in uncovering alleged municipal scandals. The speakers alleged that the attack upon the city administration were inspired by the Citizens' Alliance. Resolutions were adopted declaring that graft existed in the distribution of relief funds. The permanent relief organization is to be known as the Municipal Relief Committee of San Francisco, and is patterned after Tammany Hall.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed *free* to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away $30,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will **you** share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Win Decided Victory.

Washington, Nov. 2. New Orleans, Mobile, Norfolk and other parts which are competing for Panama canal freight shipments, won a decided victory in changes made in the original draft of the canal contract made public Thursday by direction of the isthmian canal commission. As the contract originally was drawn, it provided that contractors supplies would be carried at half rate over the Panama railroad steamship line. One of the changes announced today omits this provision and throws the freight business open to all competing lines.

G.B.Burhans Testifies After Four Years

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease have disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." Plan is Abandoned.

New York, Nov. 2.—A Berlin dispatch to the Times says the German government has been informed that the plan to send H. S. Stiles, of the United States department of agriculture to Germany as one of the American experts who will try to find a basis for a commercial treaty, has been abandoned. Although the state department of agriculture gives another reason for the withdrawal of Stiles it is believed in Berlin that Germany expressed opposition to his appointment. It has been impossible to obtain confirmation of this report, the dispatch says, but government officials intimate that Mr. Stiles' coming would not have promoted the tariff negotiations.

Girl Tramped to See Brother.

New York, Nov. 2.—Little Devoe, 16 years old, dropped fainting in the streets of Yonkers Wednesday. The girl was taken to a hospital and when revived said her plight was due to the fact that she had tramped a great deal of the way from Buffalo. Hed destination was New York, where she had a brother living. Her mother, she said, was dying in Chicago, and had written her, expressing a wish to see her son before the end came. The girl had no money, and resolved to walk to New York in an endeavor to find her brother and carry out her mother's wish. Railroad men helped her on the journey by giving her free rides.

Arrested on Riot Charge.

Atlanta, Nov. 2.—A telegram was received Wednesday evening by Sheriff Nelms from the police authorities of St. Louis to the effect that Lyden E. Fain had been arrested in that city. A man will be sent there to bring the prisoner to Atlanta. He was indicted recently by the Fulton county grand jury for being implicated in the riot. On Sunday, Sept. 23, the night after the riot, it is charged that Fain pushed a negro man off the sidewalk on North Pryor street, near the Marion hotel, and shot him in the hip. The day after he was indicted by the grand jury, and left the city.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Many Persons Have Catarrh of Kidney But Do Not Recognize It.

DAVID L. JAYCOX.

A War Veteran Spends Hundreds of Dollars in His Attempt to Cure Kidney Trouble. He Took Pe-ru-na Upon a Friend's Advice and Proved the Best Medicine He Ever Used.

CATARRH of the kidneys is a very much neglected disease.

It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some disarrangement of these organs.

The slight backaches, the feelings of lassitude, and other warning symptoms of kidney disease are overlooked.

They are not serious enough to detain the patient from his regular work.

Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it is once firmly seated in the kidneys, it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys, it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Peruna. It reaches catarrh, no matter where it may be located in the body—whether in the more exposed membranes of the nose and throat, or whether in the remotest part of the kidneys.

PE-RU-NA FOR KIDNEY DISEASE

That Peruna is at once the safest and most reliable remedy for catarrh of the kidneys is proven by the many testimonials written by those who have experienced its benefits.

The testimonial given here is only a specimen of the many testimonials on our records, pertaining to the relief afforded by Peruna in severe cases of kidney trouble.

For free medical advice, address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

Mr. David L. Jaycox, Chaplain Clarinda I. O. G. T. and Chaplain G. A. R., 865 Broadway, Oakland, Cal., writes:

"I am an old war veteran. I contracted severe bladder and kidney trouble.

"I spent hundreds of dollars and consulted a host of doctors, but neither did me any good.

"Finally some of my comrades who had been cured by Peruna advised me to try it.

"I at once bought a bottle and found it helped me so much that I kept using it for nearly four months.

"Peruna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured.

"I feel well and would not be without a bottle in time of need for ten times its cost."

So great has been the demand for exhibit space at the Florida State Fair to be held in Tampa, November 14 to 29, that the erection of several new buildings has been found to be necessary, and practically every building now standing on the grounds will have to be enlarged and extended. The capacity for live stock and poultry will have to be more than doubled, and the same is the case in almost every department of exhibition. It is now more than ever evident that the Fair will be a much grander success than that of last year, which eclipsed any fair ever held in the South before. Each mail also makes it evident that the attendance of home-seekers from other States is going to be double that of last year, and active preparations are now under way for accommodating the crowds.

All Chicago is now stirred to the limit because it has been discovered that a product known as "evaporated eggs" is manufactured entirely out of hen fruit long since decayed and gone to seed. Well, it is all a matter of taste, anyway. We eat cheese that has passed the limit and the farther away the date, the better the cheese. The Chinese bury their eggs in the ground for several months and when they are black and ripe, they are esteemed a delicacy. The Roman ladies used to use assafoetida as a perfume. We have no doubt that in time the people of Chicago will learn to relish bad eggs. It is not the only bad thing that they have first rebelled against and then taken to their bosom.

Parents do wrong in keeping their children hanging around home, sheltered and enervated by parental indulgence. The eagle does better. It stirs up its nest when the young eagles are able to fly. They are compelled to shift for themselves, for the old eagle literally turns them out, and at the same time tears all the down and feathers from the nest. 'Tis this rude and rough experience that makes the king of birds so fearless in his flight and so expert in the pursuit of prey. It is a misfortune to be born with a silver spoon in your mouth, for you have it to carry and plague you all your days. Riches often hang like a dead-weight. Yea, like a millstone about the neck of ambitious young men.

One of the most brilliant and memorable special days of the coming State Fair will be "Veterans' Day," for which November 22 has been designated. On this occasion the Third Florida Brigade, with Sons of Veterans and Daughters of the Confederacy, will hold their annual reunion, which has for several years proved so enjoyable and successful. At the same time the Grand Army Veterans of Florida will meet, and the "Yanks" and "Old Confeds" will march through the streets of the city, arm in arm, together, making a scene beautiful to look upon. In short, the Confederate reunion will be in the nature of a "Blue and Gray" reunion.

Be natural. Do not try to impress people with your importance. If you are really important they will find it out. If you are of no account you will not deceive anyone by acting as though great interests rested in your keeping. The day of pomposity is past, we hope never to return. More people than ever before are intelligent and able to judge those with whom they come in contact. This means that they are able to judge you and place a true, rather than a false estimate on your abilities.

Blessed is the man who can rest and enjoy it. Young men cannot because they need to be making a name and a fortune. Old men cannot because, inured to employment all their lives, they break down and die when left with nothing but time on their hands. Work is the greatest blessing of the age. The curse of work is over doing it.

A town that never has anything to do in a public way, is on the way to the cemetery. Any citizen who will do nothing for his town is helping to dig the grave. A man that curses the town furnishes the coffin. The man who is so selfish as to have no time from his business to give to city affairs is making the shroud. The man who will not advertise is driving the hearse. The man who is always pulling back from any public enterprise throws boquets on the grave. The man who is so stingy as to be howling hard times, preaches the funeral, sings the doxology, and thus the town lies buried from all sorrow and care.

Elsewhere in today's paper will be found strong appeals from the people of Arcadia and Avon Park, DeSoto county, to the voters of Florida, asking the latter to oppose the drainage amendment. The signers of these petitions reside in the drainage district, and the voters residing in other sections of the State should carefully consider what they say before burdening them with a tax which would render many of them homeless. We ask the readers of The Sun to carefully consider the petition.

The Miami Record, than which no paper in Florida gave more ardent and valuable support to Governor Broward in his campaign for the Democratic nomination in 1904, is advancing some of the best arguments we have seen against the adoption of the drainage amendment. Certainly the Governor will not say that The Record is subsidized, for it supports him in everything but his drainage scheme.

Just now the most prosperous country in the world seems to be New Zealand. Out of a population of a little less than 1,000,000 one-third have money in the savings banks. The wealth per head is nearly $1,500, which is the largest of any country in the world. Statistics show for New Zealand the highest health and the lowest death rate of any country.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS

The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

STRONG APPEAL TO FLORIDA VOTERS

Land Owners of DeSoto County Oppose Drainage.

PETITION AGAINST AMENDMENT

Ask People Not Now Affected to Refrain From Placing Great Burden Upon Them—Strong Reasons Why Amendment Should Not Be Adopted.

I appeal to you as an honest thinking man to read and carefully consider the petition below, which we, the citizens of DeSoto county, Fla., and residing in the Okeechobee drainage district, respectfully present to the voters of the State.

The lands which we own did belong to the U. S. Government, and we made homestead entry upon same, and contrary to the Governor's statement these lands have been assessed at 5 cents per acre for the drainage tax.

J. W. BAILEY, Postmaster.

Arcadia, Fla., October 20th.—The people residing in that part of DeSoto county included in the drainage district, have prepared a strong petition addressed to the people in other parts of the State, protesting against the passage of the proposed constitutional amendment, and appealing to voters in all parts of Florida to assist them in defeating a measure which, they claim, will prove of great damage to their part of the State, besides fastening upon them a special tax for which the proposed amendment provides.

There are two strong petitions presented and they are signed by practically all of the resident tax payers in the Avon Park section and in what is known as the Fish-Eating Creek section of the Everglades territory. The petition coming from the people residing at Avon Park is based largely upon the injustice of taxing a section of the State 150 to 225 feet above sea level for drainage of the Everglades, many miles from where their lands are to be burdened by this special tax. The petition in question is addressed to the people of the State and is a most effective plan for demonstrating to the voters in all parts of Florida what may happen to them in the event that the drainage commissioners determine to accept the power this amendment would vest in them and extend their operations to other parts of Florida. There are other good reasons given for requesting the voters in all parts of Florida to register their disapproval of the scheme of Governor Broward and members of his cabinet to levy taxes and spend millions of dollars in what the judgment of the people in that section leads them to pronounce an experiment only.

A Strong Petition.

The petition which comes from what is known as the Fish-Eating Creek section of this county is one of the strongest presentations of the case which has yet been made by those who are opposed to draining the Everglades and especially to the adoption of this constitutional amendment. The people of the Fish-Eating Creek section who have signed this petition have been residents of that part of DeSoto county for many years. Some of those whose signatures are attached to the petition have been residing there for thirty years and their knowledge of the Everglades and the conditions in that territory have been acquired by years of careful study, forced upon them by the character of their vocations. Most of them have penetrated far into the Everglades, hunting and trapping, know every part of that vast territory and are familiar with the extent of the water and the effect the rainy season has on the entire section. Nearly every resident of the Fish-Eating Creek settlement has signed the petition, and it is claimed that there is not a property owner in that part of the drainage district who is in favor of the adoption of the proposed constitutional amendment.

Will Have Much Weight.

The appeal which the voters and taxpayers of the Fish-Eating Creek settlement make to the people in other parts of the State ought to have considerable weight, coming as it does from those who are not only directly interested, but who have a knowledge of the situation such as cannot be acquired by those who reside in other parts of Florida. The petition from that part of DeSoto county follows:

The Reasons Given.

Venus, DeSoto county, Fla., Oct. 10, 1906.
To the Voters of Florida:

We, the undersigned citizens and taxpayers, living and holding property within what is known as the Everglades Drainage District, desire to appeal to the people of the State of Florida for their assistance in defeating the proposed constitutional amendment, known as "amendment to Article XVI," confident as we are that the adoption of this amendment would work a hardship on the undersigned and feeling that the taxation feature is one of great injustice, designed as it is to levy taxes upon a small territory of the State for what the Board of Drainage Commissioners at Tallahassee claim would be of great benefit to the people of the entire State, a claim which the undersigned positively deny for reasons which are herein specifically set forth. At the same time we desire to carefully present our reasons for this appeal to the people of other parts of Florida, so as they may be better acquainted with our views before voting to burden others with a tax which we respectfully present is unjust, unfair and a great and perpetual hardship to those whose lands are to be burdened with this special tax. Our reasons for this appeal we respectfully present as follows:

A Hardship to Taxpayers.

First. A special tax of five or ten cents per acre, levied by the drainage commissioners under the provisions of this proposed amendment to the constitution would be a great hardship to those in the drainage district, even were they to receive the benefit claimed from draining the Everglades. But the further injustice of taxing lands so excessively when it would injure rather than benefit the owners of same, is strikingly apparent. We respectfully submit that this plan of Governor Broward and the board of drainage commissioners to tax lands which are high and dry for draining or reclaiming other territory, is at variance with all American precedents and traditions. If the entire State is to be benefited by drainage because of the property which would accrue to the State as one of the results of a successful draining of the Everglades, why is it proposed to tax only a few? The proposed amendment to the constitution of Florida, when considered in connection with the boundaries of the present drainage district, does tax those whose lands are where they could possibly receive no benefit, and to the contrary would be injured.

Would Damage, Not Improve.

Second: From our knowledge derived from a residence ranging from thirty down to ten years in this section, and by frequent visits to nearly all of the Everglades district, we contend that far from being a benefit and reclaiming land, drainage of the Everglades would damage those lands which are now said to be overflowed, for hundreds of thousands of acres of marsh lands now used for grazing would be rendered valueless and the prairie lands injured to a great extent. We can cite the people of the State of Florida to many thousands of acres of marsh lands, once fertile and affording the very best grazing for our cattle, which are today barren sand wastes and absolutely valueless. These marsh lands were rendered barren by drouth, the muck wasting away, even where it was not consumed by fire. These marsh lands have never regained their fertility. They are today absolutely of no value. What is known as the Big Prairie, covering an area of about forty townships, would be seriously affected in this manner, the many thousand acres of marsh lands being destroyed. The loss to our stock interests would be great, and one of the greatest industries of the State of Florida would be seriously impaired. Some of the undersigned depend at certain seasons of the year upon fishing for a living and between the rainy seasons exhaust the supply of fish in Fish Eating Creek. This supply is replenished during the rainy season by the overflow from Lake Okeechobee. In fact, to briefly present this feature of our petition to the people in other parts of the State, we affirm emphatically that it would destroy one of the sources of earning a living for some of the people in this part of DeSoto county.

Would Be a Perpetual Tax.

Third: We desire to call the attention of the people of Florida to the fact that this would be a perpetual tax, by calling their attention to that provision of the proposed amendment which reads "and to maintain such canals, drains, levees, dikes and reservoirs." This would mean that this lien would remain over property in the drainage district for an indefinite length of time.

Worthy of Consideration.

Fourth: All of us are familiar with the conditions of the Everglades, have traversed nearly all of this vast tract to which we refer frequently, and through necessity have been forced to carefully observe and watch every condition and every part of the territory. We do not presume to represent ourselves as engineers, but do insist that the knowledge which conditions have taught us for many years is worthy of some consideration. We desire to give it as our positive opinion that the cost of draining or lowering the waters of Lake Okeechobee and the Everglades would reach far into the millions. In all there are streams flowing into this great lake which aggregate about twenty-six miles in width and four feet in depth in the rainy season, and extending far up into the various sections which are drained by these streams and flats. It is the opinion of those of us who have given this problem the most careful study that to provide against this great overflow of water in the rainy season it would require a canal eight and two-thirds miles wide and twelve feet deep from Lake Okeechobee to the ocean, a distance of thirty miles by the shortest route. In order to reclaim the lands south of the lake this would be necessary.

All of us feel that the adoption of the proposed amendment would not only prove injurious to us, but would fasten a burden upon the State which would be seriously felt for many years to come.

The Avon Park Petition.

The petition from the taxpayers of the Avon Park section is as follows:

To the Voters of the State of Florida:

We, the undersigned citizens of DeSoto county and owners of land within the proposed territory which Governor Broward is now making an effort to drain, though unjustly, as we are from 150 to 225 feet above the sea level, and for which purpose he is advocating an amendment to the constitution of Florida, in order to forever fasten upon the people of Florida an additional burden of taxation, wish to request the right-thinking people of this county and of the State of Florida to vote against such constitutional amendment.

Four Strong Reasons.

First: Because it fastens upon the people an enormous additional burden of taxation.

Second: Because if said amendment is adopted by the people it will place an enormous power in the hands of the Governor and his drainage commission.

Third: Because the success of draining the Everglades is uncertain and the effort merely an experiment.

Fourth: We are informed that there is in litigation now pending in the courts to determine the rights of the State and certain railroads as to the title to this land, and if it should be successfully drained and the railroad companies should win the litigation, then the people will have paid this enormous amount of money for drainage purposes for the benefit of the railroad companies only.

SHERIFF BATTLES WITH DESPERADOES

Two Men Meet Death In the Encounter.

1 ROBBER KILLED; 1 CAPTURED

Desperate Battle Occurs Near Kennewick, Wash., Between Officials and Burglars Who Robbed Two Stores in that Town.

Spokane, Wash., Nov. 2.—A special from Prosser, Wash., says:

There was a desperate battle near Kennewick between officials and burglars who robbed two stores in that town. The officers were led by Sheriff A. G. McNeal, of Prosser, who came on the robbers unawares in the bush. They were five or six in number and at once commenced firing.

Marshal Michael Glover, of Kennewick; was instantly killed and Joseph Halsey, his deputy, was fatally injured.

Sheriff McNeal was shot twice, but not dangerously hurt. After being wounded the sheriff emptied his gun at the robbers, killing one and finally capturing another.

The gang of burglars is thought to have had a rendezvous at Kennewick for the purpose of holding up a Northern Pacific train.

The captured robber says he is Robert Layton, aged 16 years.

He revealed the identity of the dead desperado as Jacob Lake, recently a convict in the penitentiary at Walla Walla.

Layton says his home was formerly in Florence, Colo.

British Murderer Discovered.

Washington, Nov. 2.—A curious result of the recent adoption by the U. S. army of the system of identification by finger prints, just reported to the war department, was the discovery in the person of a soldier at Ft. Leavenworth, of a British murderer for whom the Scotland Yard authorities have long been looking. The man was a prisoner in the United States penitentiary, serving a five-year sentence for a military crime. In prison he was well behaved and liked, but when the waren, following th egeneral order to take the finger print records of all soldiers, attempted to secure an impression of this man's digits, he met with violent resistance, and the assistant who tried to make the record was knocked down and roughly handled.

Ordinarily, Cuba supplies about two-thirds of the sugar coming into the United States from foreign countries, but for the month of September, she supplied but little over one-third.

The list of subscriptions was completed when the various subcommittees made a report at the chamber of commerce to Secretary Walter G. Cooper.

The committee of twenty-five will meet Friday afternoon at 3:30 p. m. for the purpose of receiving the reports of the subcommittee, and steps will be taken at once to buy a lot and begin the work of erecting the proposed building.

The committees have done splendid work, and the money needed has been raised within a few days.

The list already published amounted to $169,500 and the new lists foot up $84,500 making the total $264,000.

Now that the auditorium and armory have a public hall which will amply hold the largest conventions, and an armory which will house the local military.

A number of good citizens, both white and black, called upon Green for a reckoning. A jury was empaneled, composed of two whites and three blacks, who, after a fair trial, decided that 25 lashes must be the punishment. The hickory was laid on by Charley Newman, a good negro citizen.
